A person wearing a long white robe and a wide-brimmed hat stands on a sandy beach, holding a large bird of prey on their gloved hand. The person's reflection is visible in the wet sand. The background shows the ocean with waves under a hazy, overcast sky.

selenn dives us into the ethereal depths of his LP « Archipel ».

Breathtakingly beautiful and intimately immersive, selenn's sophomore LP 'Escapade' is a compelling journey into the self that pushes the Swiss artist's indie electro-folk artistry forward into enchanting new territory.

Archipel is the birth of a new chapter : the embrace of a fresh start : the open-mindedness to glide into the future with one's head high.

selenn came into our worlds three years ago with his misty and expansive debut « Equinoxe » ; echoing the likes of RY X, Novo Amor and Low Roar.

His androgynous voice is punctuated by mantric and minimalist drums, sublimated by two majestic cellos on stage. At that moment there is also a great chance that the music takes you away, wherever your dreams want to take you.
